

PROGRAM UPDATES THAT APPEAR ON THE TASK BAR

There are many files that need updated frequently that allow the users to launch and manage web and desktop applications securely. Below are the most common programs we use in our agency.

When you see a balloon message and a flashing icon in the bottom right corner of your window it means that your computer needs an update. The programs below are safe to update. Install the update by clicking on the flashing icon and following the on screen instructions.

Windows-Auto updates

Java

Quicktime Video Player

Adobe

Flash Player

Reader

Shockwave Player
